

## **MCF Operator – 2 positions available (1<sup>st</sup> or 3<sup>rd</sup> shift)**

---

### **Summary:**

Based in our Quakertown, PA facility, the Medical Component Finishing (MCF) Operator performs a variety of different functions in support of preparing medical components for final inspection and packaging.

### **Responsibilities:**

- Inspects and measures product, either visually or through microscopes, to measure and record fabric characterization such as Ends per Inch (EPI), Pics per Inch (PPI), Courses per Inch (CPI), width, diameter, thickness, etc.
- Inspects product for defects and contamination, according to Work Instructions (WI), Visual Inspection Criteria, SOP's, and internal specifications
- Records and communicates test results manually and/or electronically
- Conducts extensive data collection to support the identification of trends to increase yields through process improvement
- Enters visual inspections results as well as physical testing results into the applicable tracking databases
- Utilizes a variety of testing equipment including, but not limited to: optical comparator, hot knife equipment, microscopes and Scanning Electron Microscopy (SEM) technology
- Packs product for transfer to final inspection and final packaging
- Scours (washes) product to remove contamination and spin finishes raw materials according to WI
- Heat sets products according to specification to set construction in final form
- Cuts product to specification either manually or using laser cutting machine
- Performs additional types of medical component processes such as sewing, skiving, coiling, kitting, and heat pressing
- Enters information and uses ERP system to report quantities and time spent on jobs

### **Qualifications:**

- High School diploma, or equivalent required
- Basic understanding of good manufacturing practices and working within regulated industries
- Ability to read and interpret documents such as safety rules, operating and maintenance instructions and procedure manuals.
- Possess basic mathematical skills to add, subtract, multiply and divide in all units of measure, using whole numbers, common fractions and decimals.
- Self-starter with ability to work in a high paced environment and follow WI's and SOP's
- Ability to properly complete paperwork as required according to work instructions, standards or other specifications.
- Excellent dependability and reliability
- Meticulous attention to detail
- Strong organizational/time management skills
- Strong interpersonal skills with ability to interact with various levels of the organization
- Basic computer skills and ability to use MS Office for email
